NUR HANA

Bank Operations Executive

Malaysia | nur.hana@example.test

PROFESSIONAL SUMMARY

Bank operations professional with four years of synthetic experience in account servicing, transaction reconciliation and branch administration. Uses structured spreadsheets to investigate exceptions and maintain clear audit records. Comfortable explaining procedures to colleagues and customers, prioritising daily workloads and escalating unresolved items. Seeking an operations role that combines reliable service delivery with opportunities to learn digital process improvement.

CORE SKILLS

Excel; spreadsheet analysis; customer service; manual data entry; risk compliance; document reconciliation; exception handling.

PROFESSIONAL EXPERIENCE

Bank Operations Executive **2022 – Present**

Meranti Demo Financial Services | Fictional employer, Malaysia

- Reconciled daily transaction registers against supporting documents using Excel filters, lookup formulas and pivot tables; investigated differences and maintained an exception log with an owner and due date for every unresolved item.
- Handled customer service requests for account updates and document enquiries, recording consent and routing requests through the appropriate approval steps; used clear written explanations to reduce avoidable follow-up conversations.
- Performed manual data entry into a practice account register, checking mandatory fields and duplicate entries before submission; maintained a checklist for document completeness and escalated inconsistencies to the designated supervisor.
- Supported risk compliance reviews by assembling evidence packs, maintaining an access-controlled working register and recording review decisions; followed documented retention procedures and referred policy questions to qualified reviewers.

Operations Support Associate **2020 – 2022**

Cendana Practice Services | Fictional employer, Malaysia

- Maintained working registers, checked supporting documents and prepared clear handover notes for colleagues. Followed documented procedures, asked for clarification when evidence was incomplete and escalated unresolved requests to the appropriate supervisor.
- Supported team reporting by organising source files, checking basic totals and recording changes in a shared issue log. Helped new colleagues understand the checklist and documented recurring questions for the next process review.

SELECTED PROJECT

Built a spreadsheet reconciliation workbook with separate input, validation and exception tabs. Documented the field definitions and prepared a short handover guide so another operator could repeat the checks. The exercise used fabricated transactions and was reviewed against a reference answer sheet before presentation.

EDUCATION

Diploma in Business Administration 2017 – 2020

Demonstration College of Business | Fictional institution, Malaysia
